

How To Set Up A Micro Processing Facility

Using a 40' Shipping Container

Sample Pricing

Handwashing Station	\$100 - \$500
3 Compartment Stainless Sink	\$400 - \$1,300
Ice Makers	\$2,600 - \$4,000
Vacuum Packer Machine	\$1,700 - \$7,000
Coolers/Freezers	\$550 - \$13,500
Shipper Containers	\$1,600 - \$2,700
Shrimp Splitter	\$900 - \$1,800
Scales	\$150 - \$1,200
Stainless Steel Tables	\$250 - \$500

Example for demonstration only. Does not include costs for placement, interior water proofing, creation of a floor drain, wiring & plumbing of the container unit, or of a rest room facility – which is required. Also, a micro-processor needs access to municipal water & sewer systems along with the required licenses & permits.
