Seafood Processing Demo Lab

WHY ATTEND?

Due to seafood supply chains constantly evolving, Louisiana stakeholders should have the information and tools necessary to maintain leadership and stay competitive

WHAT TO EXPECT?

Join us for an engaging day of discussion and hands-on demonstrations!

Topics include:

- Louisiana Oyster Industry Opportunities
- Market Innovations
- Insights from East Coast, West Coast, and international oyster operations
- Competition and Impacts of Imports

WHO SHOULD ATTEND?

- Louisiana oyster dealers and processors
- Traditional and off-bottom oyster producers
- Restaurateurs, retailers and others

IN ADDITION:

Experience the state-of-the-art **Beyond the Boat LSU Seafood Processing Demonstration Lab:**

- Hands-on demonstrations of oyster smoking techniques
- Specialized packaging equipment demonstrations
- Insights into seafood processing technology, education, and outreach

The lab is equipped with a full range of commercial food processing, packaging, and refrigeration equipment, as well as a training room for virtual meetings and workshops.

Learn more about the lab's mission to support the Louisiana Seafood Industry at:
